

Welcome to the P.T.W. world.

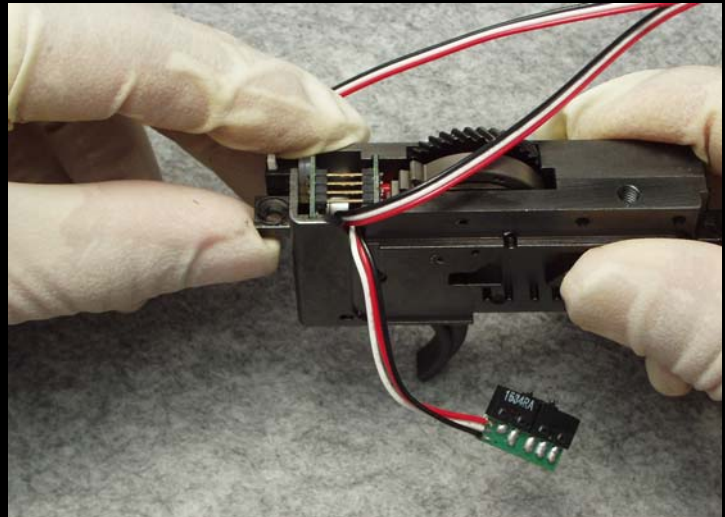

Higher accuracy parts should be installed one by one.

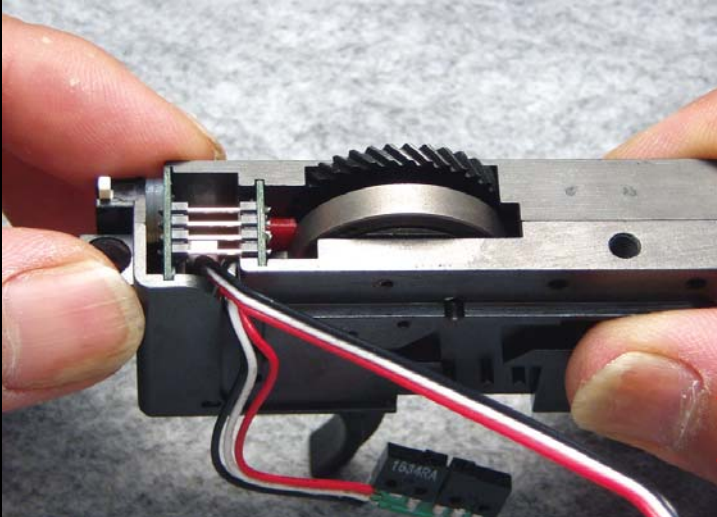

You can understand exactly the same structure as a real gun.

As it is your own gun, please do it very carefully...

The electronic control board can be installed by your hand.

Parts which affect movement have already been assembled.

You can understand all PTW structures.

All innovative structures are unveiled.

There may be some parts that their challenge levels are high....
